

CME on ABO- Incompatible Kidney Transplant- RTIICS Experience & Role of Endoscopic Ultrasound in Gastroenterology

Explore Healthcare Pvt. Ltd. an ISO 9001:2015 Certified Healthcare Management Company based in Nepal. We have a strategic partnership with Narayana Health for overall management of Narayana Health Information Centre, Kathmandu, Nepal. Explore Healthcare has been providing customized and comprehensive medical health services to the patients from beginning of their medical travel to arriving home.

Narayana Health is a JCI (Joint Commission International) and NABH Accredited Superspecialty hospital having huge hospital networks in India, USA and abroad. Narayana Health is a World's largest Cardiac Centre having high quality and affordable treatment procedures managed by Dr. Devi Prasad Shetty.

We have a Patient-centric approach conforming to International Patient Protocols, thereby establishing new standards of service and care. We try to make the best relationship with the patient, and their family, incorporating their treatment needs, budget, and lifestyle preferences into one package customized to result in the most healthy, comfortable experience possible. As a healthcare management company, we are committed to creating a new dimension in healthcare landscape with our excellent network with best hospitals with the highly accomplished doctors and medical staff.

Our involvement with medical fraternity goes beyond the boundaries. We believe in providing the best assistance to patients travelling from overseas and find the right treatment at reasonable cost and try to heal the body and the soul with a combination of medication, indulgence and travel.
